Web Community Manager Site Refresh Service

Has it been awhile since you showed your website some TLC? Let us help you create a plan to update your site and keep your brand fresh! The Web Community Manager Site Refresh Service is designed to give you guidance from a Blackboard training consultant about updates to your website in the areas of site navigation, product apps and features, accessibility, and overall design.

Collaborate with a training consultant for a full website assessment

Update website navigation for visitor ease of use

Receive one-on-one consulting to review assessment findings*

Incorporate new apps, tools and functionality from the latest releases

Apply accessibility best practices

Update website design with optional new template

*One-on-one consulting options include 12 hours of training to address assessment findings. Consulting sessions may include restructuring navigation, improving accessibility, training editors on website functionality, and more in one of the following formats:

- **Two days of on-site consulting at customer location**
- **Four, 3-hour virtual consulting sessions**
